

### Simple HTTP Server

```
1 var http = request.Http;
2
3 http.ListenAndServe(":8080", req, res);
4 res.StatusCode = 200;
5 res.ContentType = "text/plain";
6 res.ResponseBody = "Hello World!";
7 res.End();
8
9 // Listen on port 8080
```

```
// index.js

const dep1 = require('./dep1');
const dep2 = require('./dep2');

var privateVar = null;

const myModule = {
  publicMethod() {
    return privateVar;
  }
};

module.exports = myModule;
```
